4.6 University seniority is reduced to zero for a single time in the event of irrevocable withdrawal from studies in the first year. With admission back to a first year, the student is entitled to compete for the scholarship, provided that he/she has returned the scholarship previously received for the same year and that he/she meets the requirements.

In addition, the credits recognized from the old course by the University, for which the new enrollment is perfected, cannot be considered for merit achievement for confirmation of the scholarship or even for access to benefits in subsequent years.

The request for career resetting can be submitted until October 16, 2023.

4.7 Semesters are always counted from the year of first ever enrolment at the respective level, regardless of the location and course of first enrolment at any Italian university institution.

The year of first enrolment means the first access to the courses.

4.8 The years of suspension from studies (maximum two), granted by rector's decree, will not be counted for the purpose of assessing the student's merit (career years) for the purposes of granting benefits.

4.9 Students awarded a scholarship for the **first semester beyond the legal duration of their courses** are normally entitled to accommodation and canteen services for the period until **March 31, 2024**.

4.10 Bachelor students enrolling in a single-cycle degree course.

Bachelor degree students **enrolling** in a degree course activated as a result of university reform (single-cycle master's degree) will be eligible for the scholarship for the difference between the number of years taken to obtain their degree and the years for which the scholarship is granted for the degree course in which the student is applying for the 2023/2024 academic year.

For such students, the scholarship may, however, be awarded from the year of enrolment following the number of years taken to obtain the degree in their home course.

4.11 Students enrolling in a Master's degree course

Benefits are granted to students who meet the requirements for admission to the course for which they are requested, regardless of the number of years that have elapsed since the previous qualification was obtained.

4.12 Students who obtain their degree during the scholarship period.

Students who obtain their degree **during the period when they receive the scholarship benefits (winners)** retain their right to the monetary share of the (annual) scholarship, while they forfeit the services (canteen and accommodation) associated with it; for the accommodation service, the provision of Article 16 paragraph 2 of the “Regolamento delle strutture abitative” approved by resolution No. 59 of 9/9/2022 also applies.

ART. 5

INTEGRATION OF SCHOLARSHIPS FOR CURRENT GRADUATE STUDENTS

A student who obtains a Bachelor's or Master's degree within the duration provided for by the respective academic regulations benefits from a cash supplement equal to half of the cash portion of the scholarship obtained in the last year of the course, academic year 2023/2024. In view of the limited resources allocated to this benefit, students who receive a scholarship (not winners of an additional semester scholarship) and obtain their degree in the first useful session scheduled for the 2023/2024 academic year will be eligible for the supplement. For students with disabilities, entitlement to the degree award is determined by obtaining the degree within the first year out of the course.

Students who graduate particularly early, such as the student who graduates in years prior to the final year of the course, are also considered to have graduated in the first useful session.

ERDIS will reserve a sum of EUR 40,000.00 for the granting of said supplements. In the event that the reserve of funds is not sufficient to cover all the applications of eligible students, a single regional ranking will be formulated, ordered by grade (students who have passed their degree examination with 110 cum laude will have one point added) in equal grade order by value (ISEE).

However, full payment of the supplement due to the student, who would only receive a partial payment in relation to his or her position in the ranking list due to scarcity of the fund, is guaranteed.

The scholarship supplement may only be requested once during the course of studies. Therefore, students intending to enrol in a three-year degree course and subsequently in a master's degree course may, if they choose, apply for it upon completion of their first degree, a three-year degree, or upon completion of their second degree, a master's degree.

The application for a supplementary scholarship must be submitted no later than 4 December 2024. The student must use the online form by accessing the reserved area of the ERDIS website. If the form is not sent in by the aforementioned deadlines, the degree award will not be granted.

A student pursuing a Master's degree who comes from any University or Institution outside the Marche Region must notify whether he or she has already benefited from the supplementary scholarship from the institution of origin while studying for the Bachelor's degree.

the minimum merit requirements in Annexes C, D, E to be acquired by August 10, 2023 also apply. Since from the information taken from the various universities, the organization of the above-mentioned courses provides that the student may earn fewer than 60 credits, the merit requirements for those enrolled in these courses have therefore been redefined in proportion to the credits actually achievable.

7.7 Merit assessment for students transferring courses

For students enrolled in years subsequent to the first year who have made a change of course, **course credits are only valid if they are recognised** for the course for which the benefit is claimed. Therefore, the above-mentioned credits are only valid if they are included in the study plan for the year of the degree course for which the student is applying for the scholarship.

If the change of course has not been approved by the competent university authorities on the date the application is completed, the student must declare the credits accrued in the course of study of origin.

The ranking position in the new degree course (course in which the student enrolls in the 2023/2024 academic year) will be provisionally determined on the basis of the merit accrued in the home course.

Similarly, the careers of students transferring from three-year degree courses to single-cycle degree courses will be assessed.

The principle of Art. 7.5, namely that the career years shall include all the years from the year of first enrolment ever until the academic year 2023/2024.

7.8 Evaluation of credits acquired but not yet validated by 10 August 2023.

For the purpose of admission to the competition and calculation of the score determining the student's ranking, credits not yet validated by 10 August 2023 such as:

- a) credits for examinations taken abroad as part of international mobility programmes (e.g. Socrates/Erasmus);
- b) credits not yet validated due to regularisation of the student's educational-administrative position (e.g. transfer from another university);

must be declared in the application for participation in the competition.

All examinations/credits certified by the competent secretariat as having been taken **by 10 August 2023** will be validly evaluated for the purposes of calculating the score, regardless of the date of validation.

- 7.9 A student **transferring from another university** or who has requested a change of course is required to submit, following the decision of the competent university body, a self-certification from which it is possible to assess the credits validated and the year of the course to which he has been admitted.

the minimum merit requirements set forth in Annexes C, D, E to be acquired by August 10, 2023 are also applied.

7.12 Credit Rating

The credits referred to in this Article are only valid if they are recognised for the course of study for which students request the benefit, even if different from the previous year.

The limits indicated for those enrolled in Master's degree courses are increased by a number of credits equal to those in excess of 180 that may have been granted to the student at the time of enrolment.

Excess credits (extra or off-plan credits), i.e. those not useful for obtaining the degree, do not count for merit purposes.

7.13 BONUS

For the **sole purpose of meeting the minimum merit requirements** for access to the benefits referred to in the preceding paragraphs, in addition to the credits actually obtained, upon express request the student may use "**BONUS**" accrued on the basis of the course year attended in the following manner:

- a) **5 credits**, if used for the first time to obtain benefits for the second academic year;
- b) **12 credits**, if used for the first time to obtain benefits for the third academic year;
- c) **15 credits**, if used for the first time to obtain benefits for subsequent academic years.

Students enrolled in master's degree courses may use the bonus share accrued and not used during enrolment in the previous degree course. Those who have never taken advantage of the bonuses in the bachelor's degree course will be able to use a maximum of no. 15 bonuses.

The **BONUS** can only be used once and cannot be accumulated. The portion of the 'Bonus' not used in the academic year in question may be used in subsequent years. (Example: a student enrolled in a bachelor degree course: if he/she used no. 3 bonus credits of no. 5 available, to reach the minimum requirement for participation in the competition of no. 25 credits, the following year, enrolled in the third year, to reach the minimum requirement for participation in the competition of no. 80 credits, must have obtained at least no. 78 real claims to which may be added n. 2 remaining unused bonus credits).

The request to use the bonus must be made when filling out the application for the scholarship.

This provision does not apply to those enrolled in master's degree programmes following the awarding of a diploma at schools directed for special purposes, which is equivalent to a first degree.

7.14 Ex-post evaluated merit requirement for students enrolled in the first year

Two deadlines are set for the merit assessment: the first on 10 August 2024, the second on 30 November 2024.

- a) **10 August 2024:** Students who by **10 August 2024** acquire at least 20 credits (ten credits in the case of part-time enrolment) for courses organised in several teaching periods (four semesters, semesters or modules) and at least 10 credits for the others are entitled to obtain payment of the second instalment (enrolled in bachelor's or master's degree programs) or of the third installment (enrolled in bachelor's degree programs or bachelor's degrees and single-cycle master's degree programs) equal to 50% of the monetary share of the scholarship.

Students who fail to acquire the above-mentioned credits lose their right to obtain payment of the above-described installments the cash payment.

- b) 30 November **2024**: students who, by **30 November 2024**, acquire at least twenty credits (ten credits in the case of part-time enrolment), for courses organised in several teaching periods and at least ten credits for others, recognised for the course they are enrolled on in the year in which the scholarship is awarded or for the course they enrol on the following year, even if different from the previous year, retain their 2023/2024 academic year scholarship inclusive of the first instalment of the cash payment.

The scholarship is revoked if the student does not obtain the above-mentioned credits by the above-mentioned date of 30 November. In this case he shall return the cash equivalent of the services used and the sums of money collected in the manner set out in Art. 22 of this notice.

Bonuses may not be used to reach the limits set out in (a) and (b) above.

In the following exceptional situations, the deadline for achieving the merit referred to in point b) required to maintain the scholarship may be extended by four months:

- a) bereavements involving members of the declared household.
- b) hospitalisation of the scholarship applicant of at least ten days.
- c) birth of a child.
- d) events falling within the causes of natural disasters;
- e) other duly documented cases of particular gravity.

The duly documented extension request must be submitted, under penalty of exclusion, before the expiry of the deadline for obtaining the merit required by the notice (30/11/2024).

Acceptance of applications for the cases referred to in (e) above is subject to the assessment of the Director, who may seek the opinion of a specially appointed Commission. If the request is accepted, the student must communicate the achievement of merit within 15 days following the expiry date of the extension granted, under penalty of forfeiting the benefit.

- 7.15 Successful students who do not meet the merit requirement by 30 November 2024 will have their scholarships revoked, such students are required to:

- a) return any sums received;
- b) reimburse the monetary value of the services used according to the rates provided for in Art. 5 of the Regional Three-Year Plan 2020 - 2023 and subsequent additions and amendments;

The amounts to be refunded will be defined in the respective payment decisions that will be notified to the students concerned.

Reimbursement, defined in the revocation measure, shall be made in the manner set out in the measure.

The Institution shall forward the notice of withdrawal of the scholarship to the University Institutions referred to in art. 2 of this notice for measures within its competence.

ART. 8

ECONOMIC AND CAPITAL REQUIREMENTS

8.1 The student's economic conditions are identified on the basis of the “Equivalent Economic Situation Indicator” (ISEE) and the “Equivalent Assets Situation Indicator” (ISPE) for the Right to University Study benefits, with specific reference to the student applying for the benefit as provided for by Prime Ministerial Decree no.159 of 05/12/2013 and subsequent amendments and additions and by art. 6 of the Annual Programme of the Marche Region for the academic year 2023/2024. Therefore, all students will have to go to a CAAF tax center or other qualified professional to fill out the Single Self Declaration - (Dichiarazione Sostitutiva Unica - DSU) for their 2021 tax year income. However, the DSU can be submitted to INPS electronically and directly by the applicant as provided for in Article 10 paragraph 6 of Prime Ministerial Decree no. 159/2013.

8.2 ISEE and ISPE indicators

Students who meet the following financial/equity requirements may apply for scholarships for the 2023/2024 academic year:

- ISEE up to € 24,000.00
- ISPE up to € 50,000.00.

The Isee is the ratio between the Ise (Economic Situation Indicator) and the equivalence scale parameter corresponding to the specific composition of the household.

The Ispe is the ratio of the Isp (Asset Situation Indicator) to the equivalence scale parameter corresponding to the specific household composition.

Exceeding even one of these values is cause for exclusion.

Pursuant to Art. 4, paragraph 5, of Prime Ministerial Decree 159/2013, in the case in which the applicant for the benefit has been the beneficiary of a scholarship in the year 2021, certified by the Entity with a CU-2022 certificate, and for the sole purpose of ascertaining the requirements for maintaining the scholarship received by the beneficiary compared to the corresponding parameter of the equivalence scale is subtracted from the ISEE value by the disbursing entity.

8.3 Definition of the household

To grant the scholarship, the student's household is defined in accordance with the procedures set out in Prime Ministerial Decree No 159 of 05/12/2013.

In the case of two (or more) students belonging to the same household, applicants for benefits for the right to study, the ISEE statement must contain the wording "applies to subsidised benefits for the right to university study in favour of" (include the tax code of both or more students).

8.4 Independent student

Pursuant to Prime Ministerial Decree 159/2013, Art. 8 as amended and supplemented, a student who no longer lives with his or her family of origin is considered independent if both of the following requirements are met:

- a) residence outside the family unit for at least two years from the date of submission of the single self certification (Dsu) referring to the family unit (Art. 10 of Dpcm no. 159/2013), in accommodation not owned by a member of that family.
- b) the student's income from employment or assimilated taxable income, for at least two years, not less than EUR 9.000.00 per year with reference to a household of one person.

According to Ministerial Decree no. 363 of 29/12/2015, the adequate income capacity must, in principle, be referred to a single university student. If, however, the latter is married, the aforementioned threshold for the adequacy of income capacity must also be assessed taking into account the income of the university student's spouse.

8.5 The applicant student's parents who are not cohabiting with each other are part of the same family unit, defined in accordance with Article 3(2) of Dpcm no. 159/2013 with the exception of the cases referred to in Article 3(3), if married, and the cases referred to in Article 7(1), if unmarried. If the cases referred to in Article 7(1) apply, the ISEE is supplemented by an additional component, calculated on the basis of the economic condition of the non-cohabiting parent, in accordance with the modalities set out in Annex 2, paragraph 2, an integral part of Decree no. 159/2013.

8.6 Student enrolled on PhD courses

The applicant's family unit for PhD course benefits is made up exclusively of the applicant him/herself, his/her spouse, his/her children under the age of 18, and his/her children of adult age, in accordance with the rules set out in paragraphs 2 to 5 of Article 3, and without prejudice to the possibility for the beneficiary to form the family unit in accordance with the ordinary rules set out in Article 3 (art. 8, paragraph 4, Prime Ministerial Decree 159/2013).

8.7 Refugees and stateless persons

For the purposes of assessing economic status for **students who have been granted stateless status or "refugee" status, "subsidiary protection" status or "temporary protection" status pursuant to the Prime Ministerial Decree of 28/3/2022**, only income and assets held in Italy are taken into account in accordance with the procedures set out in Prime Ministerial Decree 159/13, and therefore they are required to submit the single self-declaration (Dsu) for Isee purposes.

8.8 The equalised indicator for foreign students not resident in Italy or with parents' households resident abroad.

Students not resident in Italy (non-EU or EU with a family nucleus abroad) and foreign students resident in Italy, who are not independent, with their parents' family unit residing abroad must present the documentation required for the calculation of the equalised ISEE/ISPEU indicated in art. 11 of this notice.

Considering that this calculation is not contemplated in Prime Ministerial Decree 159/2013, on the basis of the regulations in force, it will be the competent ERDIS office that will carry out the calculation of the Isee applicable to foreign students, defining for each one the **university parity indicator**.

Foreign students whose family unit does not reside in Italy and is not enrolled in the AIRE lists who are enrolling on a three-year degree course, master's degree course or single-cycle master's degree course with an application duly submitted by the deadline and who will not be able to submit all the necessary documentation in original copies relating to their family unit, income and assets abroad together with the application may send it later in the deadline indicated in the following point.

Under penalty of exclusion from the final rankings, with the possible restitution of the value of the free benefits used, the aforementioned students must deliver to ERDIS the legalised originals required for the calculation of the equalised university indicator by October 16, 2023, in a single envelope.

Foreign students whose ISEE value has not yet been determined because they have not yet turned in the original legalized documentation, for which their equalised university indicator is still unknown in accordance with Article 11.2, are provisionally placed in the provisional and settled rankings under condition with the maximum value (€24,000.00).

They will be excluded with the final rankings if by October 16, 2023 they have not submitted the necessary documentation meeting the requirements of the notice.

Students who by the deadline of October 16, 2023 have submitted documentation in original but incomplete or imperfect and were therefore excluded from the benefit by the final rankings may, by January 31, 2024 submit additional documentation supplementing the previous one; if the overall documentation submitted is found to be perfectly compliant with the requirements of the notice, such students may be readmitted to the benefit, if there is still availability of financial resources and if are in possession of all other requirements.

The documentation required for the calculation of the ISEE/ISPEU is indicated in Art. 11 of this notice.

8.9 Current ISEE

ISEE may be replaced by a similar indicator, defined as "current ISEE" and calculated with reference to a period of time closer to the time of application for the benefit, when the conditions set out in Article 9

of Prime Ministerial Decree 159/2013 and subsequent amendments and additions are met, according to the procedures described therein.

- 8.10** In the event of changes in the composition of the household unit and changes in the household's economic condition, such as to terminate the right to the benefit, or in the event of errors in the Isee declaration used to apply for the scholarship, the beneficiary is required to submit, even during the year, a new single self declaration (DSU) and to inform the Organisation, which will withdraw the benefit if one or both Isee indicators exceed the thresholds established in art. 8 of this notice.

Art. 9

STUDENTS WITH ONE OR BOTH PARENTS WHO LOST THEIR JOBS FROM JULY 2022 TO JUNE 2023

In application of Art. 5 of the regional programme for the right to study, adopted for the academic year 2023/2024, a reserve amounting to 5% of the funds will be made in favour of students from families wherein one or both parents have lost their jobs between July 2022 and June 2023 and are still unemployed following dismissal from a company in an economic crisis situation in Italy and are registered in the unemployment lists pursuant to L. 297/02 or mobility under L. 223/1991 or under L. 236/1993. For these students, the income/wealth and merit conditions set out in Art. 7 and 8 of this notice. Thirty per cent of the funds will be reserved for students enrolled in the first year of bachelor, master, single-cycle master and third-level degree courses. If funds are not sufficient to cover all applications, two separate rankings will be drawn up, between the first year and subsequent years, taking into account economic situation (ISEE) and merit respectively. Interested students must compulsorily send the documents referred to in Art. 11.3 letter f.

Art. 10

TERMS AND MODALITIES FOR SUBMITTING THE APPLICATION

10.1 Deadlines for submitting the application

ART. 11

DOCUMENTATION REQUIRED FOR PARTICIPATION IN THE COMPETITION

11.1 To access the benefits provided for the 2023/2024 academic year, all students with assets and income generated in Italy must be in possession of the ISEE certificate or receipt of the DSU specifically for "**Benefits for the right to university study**".

11.2 Foreign students - Calculation of ISEEU/ISPEU parity

Foreign students may not make use of the self-certification option, but it is necessary that they submit the relevant documentation described below in original and hard copy format.

The documentation must be issued by the competent authorities of the country where the income was produced and legalised by the Italian diplomatic authority competent for the territory.

For countries that have acceded to and ratified the Hague Convention concluded on 5 October 1961, apostille may be used instead of legalisation by the Italian Embassy.

An Italian translation conforming to the foreign text and certified by the competent Italian diplomatic or consular authority, or by an official translator, must be attached to the above documents drafted in a foreign language.

For countries where there are particular difficulties documented by the local Italian Embassy, the above-mentioned documentation may be issued by the competent foreign diplomatic or consular representations in Italy and legalised by the Prefectures.

The documentation must certify:

a) the composition of the household with an indication of those cohabiting with the head of household on the date of application.

In the event of the death of one of the parents, the date of death must be indicated on the documents or additional documentation must be attached.

In the event of separation or divorce of the parents, a certificate attesting to this condition must be enclosed.

Appropriate documentation is also required in the case of abandonment by the parent or the pronouncement by the competent authority of the parent's removal from the family residence;

b) the income received by each member of the household expressed in the currency of their country in the 2021 tax year; if there is no income for each member over the age of 18, this must be expressly stated in the documentation;

If there are difficulties in documenting this lack of income, supporting documentation must be submitted, such as, for example, a certificate attesting to unemployment status, employment as a domestic worker (homemaker) or student status.

c) a description of all the real estate owned by each member of the household as at 31/12/2021 with an indication of the value defined pursuant to paragraph 3 art. 5 of Prime Ministerial Decree no. 159/13; if there are no assets for each member over the age of 18, this must be expressly specified in the documentation;

d) the description of the movable assets consisting of the components specified in Art. 5 subsection 4 of Prime Ministerial Decree 159/13, held abroad as at 31/12/2021 or the value of the average annual holding referring to the same year by each member of the household; Documentation relating to securities issued by banks and similar institutions is exempt from

legalisation by the competent Italian diplomatic authority, subject to the requirement of a translation into Italian in accordance with the original foreign text and certified by an official translator.

- e) photocopy of the residence permit, for the academic year 2023/2024, issued by the competent public order authority. The copy of the residence permit may be submitted later provided that it is submitted by 2/5/2024, but in this case the benefits will be granted conditionally and with the suspension of the payment of any sums of money until the document is actually delivered. If the document is not presented by 31/12/2025, the student forfeits the right to obtain any sums of money linked to the study scholarship, without prejudice to the revocation of the benefit in the event that the competent authority fails to issue a residence permit.

For students from EU member states, it is necessary to present the relevant documentation issued by the competent authorities of the country where the income was generated, translated into Italian, **but legalisation is not required**.

Non-EU students from particularly poor countries referred to in Ministry of University and Research Decree no. 115 of February 28, 2023 listed in Annex B to this notice, must present certification from the Italian Representation in the country of origin that the student does not belong to a family known to be of high income and high social standing. The relevant certification is made to correspond for both ISEE and ISPE indicators to 'zero' euro.

For students enrolling in the first year of all degree courses, certification that the student does not belong to a family known to be of high income and high social standing may also be issued by Italian bodies authorised to provide a guarantee of financial coverage under the current provisions on the enrolment of foreign students in Italian universities; in this case, the body issuing such certification undertakes to repay the scholarship on behalf of the student, if it is revoked.

For the purposes of assessing economic status for **students who have been granted stateless status or "refugee" status, "subsidiary protection" status or "temporary protection" status pursuant to the Prime Ministerial Decree of 28/3/2022**, only income and assets held in Italy are taken into account in accordance with the procedures set out in Prime Ministerial Decree 159/13, and therefore they are required to submit the single self-declaration (Dsu) for Isee purposes. These students must enclose **a copy of the certificate attesting to their status with their application**.

Students seeking international protection are required to submit the relevant official application documentation.

For these students too, only income and assets held in Italy are taken into account according to the procedures set out in Prime Ministerial Decree 159/13 and they are therefore required to submit the Single Self-Declaration (Dichiarazione sostitutiva unica - Dsu) for Isee purposes.

Any award of the scholarship remains suspended until one of the above statuses is recognised. Once this status has been granted, in addition to acquiring the right to the monetary share of the scholarship, the student can start using the services associated with the scholarship (canteen and accommodation if available) free of charge.

11.3 Other documentation

Students who identify themselves in one of the conditions described below must produce:

f) **Students with one or both parents who lost their jobs in the period from July 2022 to June 2023**

Students belonging to families in which one or both parents have lost their jobs between July 2022 and June 2023 and remain unemployed following dismissal from a company in economic crisis in Italy must produce documentation showing that one or both of the student's parents have lost their jobs between July 2022 and June 2023 (dismissal letter).

The required documents must be submitted (by upload in the online application procedure). In the event of late or incomplete documentation, the student **will not be** placed in the reserved ranking list but in the general ranking list.

When applying online, the student can upload the letter of dismissal/redundancy.

ERDIS reserves the right to check the documents submitted by candidates at any time and to have additional documents submitted at a later date.

ART. 12

THE AMOUNT OF THE SCHOLARSHIPS

The amount of the scholarship is determined on the basis of the Equivalent Economic Situation Indicator and whether the student is an 'Resident', 'Commuter' or 'Non-resident' student.

12.1 TYPE OF STUDENTS TARGETED BY THE INTERVENTIONS.

Each student is granted a location status, depending on the distance between his or her residence and the university study location. In cases where students attend a course of study at decentralised branch of a university institution, the classification is made by considering the distance existing between the municipality of residence and the actual location of the courses attended.

1. **Resident** students: students residing in the municipality where the course of study is held are considered to be resident students;
2. **Commuter** students: students are considered to be commuters if they reside in a municipality that allows them to commute daily to the location of the course they are attending and the distance can be travelled by public transport in a **time of up to 60 minutes**. **For each of the university locations, the municipalities are indicated in Annex a) to this notice;**
3. **Non-resident students:** students are considered to be non-resident students if they reside in a municipality that is more than 60 minutes away from the course they are attending and that can be reached by public transport in more than 60 minutes and for this reason they take lodgings in the vicinity of the course, using the Institution's residential facilities or using other public or private accommodation for a period of no less than ten months in **the academic year for which the scholarship is requested**. Therefore, any assessment of travel time using private vehicles is excluded.

Therefore, non-resident students are those residing in municipalities not included in the previous two cases.

If a student residing in a place far from the course venue takes lodgings near the course venue on a **non-payment** basis (free of charge) for a stay of no less than 10 months, he/she is considered a **commuter student**. To this end, the student must state in the scholarship application the name of the person hosting him/her, resident in the municipalities considered to be the main seat of the university institutions, his/her domicile and the period of stay (not less than ten months). The organisation may request appropriate documentation to prove the truthfulness of the declaration.

Foreign students are in any case considered to be **non-resident** students, regardless of their place of residence in Italy, except where the student's family unit resides on Italian territory.

12.2 Scholarship amounts for the 2023/2024 academic year

Pursuant to Mur Decree no. 1320 of 17/12/2021 and of the Regional Programme for the Right to Study approved by the Marche Region Council for the academic year 2023/2024, the following scholarship amounts are defined for the academic year 2023/2024:

non-resident and independent students (Art. 8.4 this notice) € **6.656,52**

commuter students € **3.889,99**

resident **students** € **2.682,77**

Students attending **distance-learning courses** and under detention € **2.682,77**.

Students admitted to PhD programmes are granted a 'non-resident' scholarship regardless of where they come from.

12.3 Amount of scholarships for the further semester

The scholarships awarded for the first semester beyond the legal duration of courses activated in implementation of Ministerial Decree No. 270/04 and Law No. 508/99 and subsequent amendments and additions are for an amount **equal to half the scholarship** envisaged on the basis of the beneficiary student's subjective condition; the services, accommodation and canteen obtained, will be provided **normally from the beginning of university classes to March 31, 2024**.

12.4 For students enrolled in courses of study pursuant to Art. 2.1 who simultaneously take up the training courses referred to in Art. 3 of Ministerial Decree of 10/8/2017 no. 616 the amount of the scholarship is determined in full in the amounts indicated in section 12.2.

12.5 For students with an ISEE indicator less than or equal to half of the maximum reference limit provided for in Article 4, paragraph 2, there is a 15% increase on the amount of the scholarship due.

12.6 In order to further promote female access to higher education in scientific subjects and to reduce the so-called gender gap in this area, for female students enrolled in S.T.E.M. courses (Science, Technology, Engineering and Mathematics) the amount of the scholarship due is increased by 20%. For S.T.E.M. courses

of study, please refer to the table published in the open-data area of Ustat at the link: <http://dati.ustat.miur.it/dataset/dati-per-bilancio-di-genere/resource/3f52db2f-24ce-4605-8e51-5618cc4ff4e3>.

The 20% increase in the scholarship for Stem students cannot be combined with the 15% increase provided for students with Isee levels below 50% of the maximum reference limit and therefore the increase is calculated on the basis of the value of the scholarship due to the student as enrolled in S.T.E.M. courses.

12.7 Students simultaneously enrolled in two courses of study are allowed to obtain and maintain the scholarship scholarship with a 20% increase where they meet and maintain the merit requirements set forth in Ministerial Decree No. 1320/2021 for the entire duration of the courses. In order to get the increased amount of the scholarship, the student must maintain for both courses of study in which he/she is enrolled, the merit requirements provided for in the Decree of the Minister of University and Research December 17, 2021, No. 1320.

12.8 Reduction of scholarships in relation to ISEE value

Pursuant to Art. 5 point 1, of the Marche Region's Three-Year Plan, the amounts set forth above are reduced according to the services that the Entity provides, as indicated below:

- a) "Non-resident" and independent student: it is reduced for the Accommodation Service by € 2.500,00 on an annual basis for a period of ten months and by € 1.866,20 on an annual basis for two daily meals (lunch and dinner);
- b) "Commuter": is reduced by Euro 933,10 on an annual basis for a daily meal.

The scholarship will be paid in full to students whose equivalent economic situation indicator of the applicant's household is between 50% and 2/3 of the maximum reference limit.

For higher values until the aforementioned limit is reached, the scholarship is gradually reduced to half the minimum amount, ensuring in any case that the cash portion is no less than € 778,00 (€ 389,00 in the case of part-time enrolment) for off-site students who are granted free accommodation and two daily meals and € 778,00 (€ 389,00 in the case of part-time enrolment) for commuter students who are granted one free daily meal.

12.9 Scholarship supplement for disabled students recognised by the commission pursuant to Law 104/92 or 'disability' of no less than 66%.

A reserve of funds not exceeding € 15,000.00 will be set aside to allow for the purchase of prostheses and supports, as well as for the implementation of any other intervention that facilitates the use of teaching and studying.

No scholarships will be awarded for the purchase of the same media and teaching materials reimbursed in previous years. The same material/support may be reimbursed if the student demonstrates that what has already been reimbursed is no longer reusable or usable.

The student must **a specific request through the online form by 12/15/2023** accompanied by tax documentation proving the expenses incurred in the year 2023.

Each student may be awarded a scholarship of up to EUR 2,000.00.

In the event that the financial resources are insufficient to guarantee the integration of all eligible students, a single ranking list will be drawn up for students from all university institutions, defined in ascending order on the basis of the ISEE value.

In the event that there are remaining funds after allocation of the benefit to students with applications submitted by the deadline, further applications may be examined and may be accepted in the order in which they were submitted.

12.10 **Reassessment of scholarship amount**

A student in receipt of a reduced scholarship whose financial situation has deteriorated since the declaration made at the time the scholarship was awarded may submit appropriate documentation in order to have his or her position reviewed with an increase in the amount of the scholarship starting from the next six-monthly instalment. This increase may be granted if funds are available after the rankings of eligible candidates have been exhausted.

12.11 **Waiver of accommodation service**

In the event that the off-campus student, at the time of filling out the application, renounces the place of accommodation at the facilities managed by the institution or despite having requested it, expressly renounces it by the approval of the final rankings (**scheduled for October 31, 2023 - see art. 15.3 Rankings definitive**), the share of the scholarship related to the renounced student's accommodation service will be allocated to disburse other Scholarships for the same academic year.

ART. 13

DISTRIBUTION OF SCHOLARSHIP FUNDS

13.1 Scholarships are awarded on the basis of the budget quantified by subsequent ERDIS records.

Contributing to the financing of this notice are:

1. the revenue from the regional fee for the right to study and the professional qualification fee
2. the Marche Region's own resources
3. The European Social Fund
4. the State Supplementary Fund

5. the additional resources under the National Recovery and Resilience Plan, Mission 4 Component 1 Investment 1.7 "Scholarships for access to university" - funded by the European Union - NextGenerationEU.

6. Any other Erdis funds.

13.2 The following reserves are established:

1. Euro 200,000.00 for granting the scholarship supplement to students participating in international mobility programs;
2. Euro 40,000.00 for the grant of the scholarship supplement to students who have graduated in progress (current graduation);
3. 5% of funds for granting scholarships to students belonging to families in which one or both parents have lost their jobs during the period from July 2022 to June 2023 and persist in the state of unemployment following dismissal from Italian company in an economic crisis situation.
4. 0.2% of the funds for granting scholarship to students enrolled in courses of specialization courses of at least two years' duration excluding those in the medical area and students admitted to doctoral courses that do not benefit from the scholarship referred to in MURST Decree April 30, 1999, No. 224.
5. 30% of the sums for granting scholarships to students enrolled in the first year of all first and second level courses to be distributed among the university institutions according to the provisions provided for in subparagraphs (a) of art. 14.1 below.
6. For the disbursement of grants to students with disabilities, aimed at the purchase of prostheses and supports, as well as all interventions that facilitate the enjoyment of educational activities and study, a sum not exceeding € 15,000.00 is reserved.

The resulting unallocated funds of each of the reserves mentioned in points 1, 2 and 6 may be allocated to compensate for any shortage of resources within the same provisions.

13.3 Regarding the coverage of free catering service to be guaranteed to eligible non-scholarship winner students enrolled in the years following the first year of all courses, any sum necessary to cover the catering service, will be quantified and determined with the publication of the rankings.

13.4 The remaining sum, excluding reserves, will be distributed among students enrolled in years after the first among all degree classes and within these, by year of course in relation to the number of applications for scholarships received by the deadline set by this notice.

All graduating classes will be guaranteed at least one scholarship.

13.5 The source of funding from European sources under regional management represented by the Regional Program (RP) FSE+ 2021/27 programming, is allocated to the following two particular interventions that fall under two specific objectives of the programming document, namely:

That is, support for the right to study through financial allowance to female students with residence or domicile in the Marche Region to attend technical university degree courses (S.T.E.M.) under O.S.4.c (Promoting women's participation in the labor market, better work-life balance, including access to childcare and dependent persons) and support for the right to study through financial allowances to students with residence or domicile in the Marche Region, for attending degree programs under the of O.S.4.f (Promoting equal access to and completion of an education and training inclusive and quality, particularly for disadvantaged groups, from early childhood education and care, through general and vocational education and training, to the tertiary level and education and adult learning, including by facilitating mobility for the purpose of learning for all and accessibility for people with disabilities).

ART. 14

FORMULATION OF RANKINGS

14.1 Having quantified the financial resources to be used for the awarding of scholarships, ERDIS will formulate the single regional rankings taking into account the following criteria:

- a) for those enrolled for the first time in the first year of all courses through the approval of a single regional ranking of eligible students, without any differentiation according to degree classes, defined in ascending order on the basis of the Equivalent Economic Situation Indicator; in the event of an equal Isee value, preference will be given to the youngest student by age.
- b) for students enrolled in the years subsequent to the first year of all courses, through the approval of single regional merit rankings, arranged in descending order on the basis of the number of credits accrued and the grades obtained, committing up to the amount of the available resources allocated for this purpose, without prejudice to the balanced distribution of benefits among all degree classes and by year of course, based on the number of scholarship applications received by the deadline set out in the relative call for applications issued by ERDIS. For the formulation of the ranking list, the ratio between credits accrued and those required for participation in the scholarship competition for those enrolled under the new teaching system shall be taken into account, increased by the ratio between the arithmetic mean of the marks for all the examinations taken and the thirtieths, recorded as at 10 August of the reference year (tests and/or marks not expressed in thirtieths shall be excluded from the calculation of the average).

The calculation shall take into account the first three decimal numbers with rounding up if the third decimal is equal to or greater than 5 or down if less than 5. In the event of a tie, the ranking is

determined in ascending order on the basis of ISEE. In the event of a further tie, preference will be given to the youngest student. The score resulting from the calculation as described above will determine the position in the ranking list.

c) Credits claimed with the bonus will not be taken into account for the calculation of the score.

- 14.2 For students enrolled in the first year and the years following the first year of PhD and specialisation courses, the scholarship is awarded on the basis of a single ranking established in ascending order on the basis of financial status (ISEE).
- 14.3 For students enrolled in the years following the first at the Conservatory of Music, a single ranking will be drawn up by degree level, without distinction by degree class and year.
- 14.4 Foreign students whose family unit does not reside in Italy and is not enrolled in the AIRE lists, who are enrolled in a three-year degree course, master's degree course or single-cycle master's degree course with an application duly submitted by the established deadline, whose equalised ISEE value has not yet been determined, as they have not yet delivered the original legalised documentation required to calculate their university parity indicator, are included in the provisional ranking list with the ISEE corresponding to the maximum reference threshold value. Their position will be defined in the final ranking list, following the submission, by 16 October 2023, of the original legalised documents required for the calculation of the university parity indicator as set out in Art. 8.8 of this notice.

These students will be excluded from the free benefits if they do not submit all the documentation stipulated in the notice by the deadline; following exclusion from the benefit, they will have to return the sum corresponding to the value of the free benefits used from the beginning of the academic year 2023/2024.

- 14.5** For the purposes of assessing the student's income and assets situation, the online application procedure will acquire the data relating to the last valid ISEE statement calculated for the right to university study issued in the year 2023 in the INPS computer files, assessed on the basis of the DSU presented by the student by the application deadline.

In the event that the DSU is processed at a later date, ERDIS will acquire the Isee Certificate from the Inps database by September 5, 2023, provided that the relevant Dsu has been signed by the pre-emptory deadline of the application.

The valid DSUs for the right to study calculated after September 5, 2023, and the provisional ones under Art. 11 paragraph 8 of Prime Ministerial Decree 159/2013 will be assessed when the final and definitive rankings are approved.

Any corrections to the DSU, valid for the right to study, made after the submission of the application and, in any case, within the terms of the notice of competition, may be verified when appealing the

provisional rankings or during the assessment phase. ERDIS disclaims all liability in the event of failure to retrieve data from INPS's archives for reasons not attributable to ERDIS.

The student is required to verify the truthfulness and correctness of the data entered in the DSU.

14.6 Formulation of rankings for the granting of accommodation in the event that availability is insufficient to grant the service to all students benefiting from the scholarship.

If there are not enough accommodation places to satisfy all the requests of scholarship recipients, first-year and post-first-year students, the relevant rankings will be drawn up according to the criteria set out in the accommodation notice.

14.7 Ranking for the provision of accommodation services to students with disabilities who are beneficiaries of scholarships.

In the event that requests for accommodation exceed the number of places available that the organisation has reserved for students with disabilities, places will be allocated according to a ranking of students in ascending order of Isee.

ART. 15

PUBLICATION OF RANKINGS

15.1 Provisional rankings

Provisional rankings are drawn up on the basis of the data declared by the student when completing the application.

Approximately by September 11, 2023, the provisional rankings and the relevant list of excluded students are approved by decision of the Director of ERDIS, and the allocation of accommodation can be carried out in the immediately following days.

The outcome of the competition will be announced to all interested students by means of a special notice on www.erdiss.it and will be available in the student's private area.

Foreign students whose ISEE value has not yet been determined because they have not submitted the **original legalised** documentation for which their **university parity indicator** under Art. 11.2, are ranked with the maximum value (€ 24,000.00).

15.2 Requests for review and ranking lists

By the **fifth day following** the date of publication on the website of the notice referred to in Article 15.1, students may propose an application for review, using the online form only that will be made available by the institution and that the student can fill out by accessing his or her Area reserved area.

Requests for review will be accepted or rejected by decision of the director of the organisation. If the appeal is upheld, the position will be determined with the approval of the scholarship ranking list.

A student, who **has submitted a request for ISEE calculation for university benefits within the deadline for the application for a study scholarship, and who** has been excluded from the provisional ranking due to the failure to record the values contained in the certificate (ISEE/ISPE etc.) within the deadlines provided for by art. 11, paragraph 8 of Prime Ministerial Decree 159/2013, may request, through an appeal, a review of their position. If the organisation finds that the lack of the required data is not attributable to the student, **by the last day valid for the submission of appeals**, it will check the INPS database for the presence of the aforementioned values; if not, it will definitively exclude the student from the study scholarship for the 2023/2024 academic year.

15.3 Definitive rankings

Compatibly with the dates of enrolment at the various university institutions under Art. 2 of this notice, the ranking lists will be made final normally by **October 31, 2023**.

Students will be able to check the outcome of the competition in their reserved area which can be consulted online; this publication counts for all intents and purposes as an 'ad personam' notice.

An appeal against the final rankings may be lodged with the Regional Administrative Court within 60 days of their publication and an extraordinary appeal to the Head of State within 120 days of their publication.

For any further information, interested parties should contact the ERDIS Right to Study Offices.

ART. 16

DELIVERY MODE

To the winning students, the scholarship is awarded in services and cash in accordance with Art. 12, as follows:

16.1 The accommodation service

- a. For off-campus students who have been awarded the scholarship, the housing service will be granted for a period of 10 months, starting, normally, from the beginning of university classes until July 2024. The free housing service, for scholarship winners of the first semester beyond the legal duration of course activated in implementation of DM 270/04 and the law on the reform of institutions for higher education art and music and subsequent amendments and supplements, will be granted until March 2024 normally starting from the beginning of university classes. They will be able to continue to occupy the housing place in ERDIS facilities under the conditions set out in the notice of the paid housing. Erdis may consider which and how many residences to keep open during different holidays giving preference in the admission to such facilities to students with family nucleus abroad and those

with residence furthest from the location of the course of study. Students awarded scholarships, who earn their degrees during the period of benefits, retain the right to the monetary portion of the scholarship (annual) while they forfeit the services (canteen and accommodation) related to it; for the accommodation service, the provision of Article 16 paragraph 2 of the “Regolamento delle strutture abitative” approved by resolution No. 59 of 9/9/2022 also applies.

b. Allocation of accommodation to students with disabilities.

The Accommodation Manager must take into account the type of disability of the student and, if necessary, point out to the Institution's bodies the lack of suitable accommodation for the disabled student. The disabled student or a member of his or her family, before taking possession of the accommodation, must inspect it and make an appropriate declaration that he or she has no objection to being accommodated in the assigned accommodation and also declare how he or she intends to provide personal services on a 24-hour basis if the student is unable to do so independently. In the event that they find elements incompatible with the state of disability that the organisation cannot remove and have no suitable rooms to offer as an alternative, the accommodation will not be granted and the amount equivalent to the service will be paid in cash.

- c. - g. The Institution's University Residence Regulations apply to the student beneficiaries.

ART. 17

CONTRIBUTIONS FOR INTERNATIONAL STUDENT MOBILITY

Students receiving a scholarship in the 2023/2024 academic year, including those enrolled on PhD courses, are entitled for one time only for each course and for one time only for those enrolled in courses at higher institutes of higher education at university level to a supplement to the scholarship for participation in international mobility programmes, both within the framework of programmes promoted by the European Union and of non-EU programmes.

Participation in such programmes and the period of study and/or placement abroad must also be recognised in terms of credits within one's course of study for the purposes of the final examination.

For the above-mentioned purposes, on the basis of its financial resources, the institution grants bursary holders a supplement to the bursary in the amount of € 600.00, on a monthly basis, for the duration of the period spent abroad, up to a maximum of ten months, subject to certification by the university institutions referred to in art. 2, which promotes the mobility programme, regardless of the country of destination. The amount of the supplement must be deducted from the amount of the scholarship awarded from EU funds or other bilateral agreement, including non-EU funds.

The scholarship is limited to the period of stay abroad subsidised by the university institutions with an international mobility scholarship- Scholarship recipients for the last semester resulting in the ranking list for this scholarship will benefit from the supplement for a maximum of five months.

The application for the scholarship is submitted when filling out the online application form.

In the case of participation in mobility programmes with quotas subsequent to the first one, applications may be submitted after the authorisation to participate in international mobility, with no guarantee of acceptance by ERDIS, which, within the scope of any residual funds available for this programme, reserves the right to pay the supplement after the allocation of scholarships to students with applications within the deadline.

For disbursement of the scholarship, the organisation will create a reserve of EUR 200.000,00.

If there are insufficient funds available to guarantee the integration of all eligible students, rankings will be drawn up according to the criteria described below:

90% of the fund is earmarked for students enrolled in years subsequent to the first year, while the remaining 10% is reserved for students enrolled in the first year.

The position in the ranking list is determined:

- for students enrolled in the years following the first year: in descending order of the coefficient of merit drawn up in the final ranking for the 2023/2024 academic year according to the criteria set out in art. 14 letter b) of this notice. In the event of a tie, the position is determined in ascending order on the basis of ISEE. In the event of a further tie, preference will be given to the youngest student;
- for students enrolled in the first year: in ascending order based on ISEE. In the event of a tie, preference will be given to the youngest student.

However, full payment of the contribution is guaranteed to the student who would only receive a partial payment due to the scarcity of the fund in relation to his or her ranking.

The advance may be granted up to a maximum of 70% of the contribution and may be disbursed on request before the programme starts, only if the timing of the start coincides with that of the publication of the final ranking lists.

If the information from the university institutions has not yet been received for the purpose of disbursing the advance, the data self-declared by the students in the online application may be taken into account and as the amount of the scholarship from European Union funds or other bilateral agreement, including non-EU funds, the amount of 200.00 euro per month may be provisionally counted in the calculation.

At the end of the period of stay, the contribution will be related to the number of days actually spent abroad recognised by the university or other university institution.

The final instalment will be paid at the end of the academic year, subject to verification of the achievement of the results envisaged in the mobility programme.

If verification of the achievement of the results envisaged in the mobility programme is not passed, the amount of the scholarship paid as an advance will be recovered.

A student who spends a shorter period than the one declared must repay the sums equivalent to the months not actually spent abroad.

Provided that there are vacancies, students participating in International Mobility Programmes, holders of scholarships with accommodation in the organisation's housing facilities have the right, on their return to Italy, to be reintegrated into their accommodation with priority over all other students.

In addition, scholarship winners who meet the credit recognition requirement will be paid the cash amount for accommodation and canteen services not used during their stay abroad at the end of the academic year, in

proportion to the number of days they did not use these services during the 2023/2024 academic year (since the opening of services for one year). The non-resident student is aware that acceptance of the request for monetisation of the accommodation service is conditional on the return, before departure, of any room allocated, free of all personal belongings.

If the student has never taken possession of the accommodation, before or on return from their stay abroad, no reimbursement will be made unless the student spends a period of ten months abroad (five months for winners of the additional semester), rounded upwards, starting since the opening of services.

If the student spends a period abroad of less than ten months and on his or her return the Institution has been unable to secure an accommodation place for him or her, the period equivalent to the difference between the months spent abroad and the ten months will also be monetised.

ART. 18

CONCESSION AND RATES FOR SERVICES RESERVED FOR ELIGIBLE STUDENTS NOT RECEIVING A SCHOLARSHIP

Eligible students, who do not receive a scholarship due to insufficient funds, are eligible to use the catering service free of charge, with the exception of students enrolled in the first year who are charged € 5.50 for a full meal or € 3,30 for a reduced meal.

In accordance with the principle of precedence, reserved for students who have been declared scholarship winners, the remaining accommodation places will be granted to eligible non-resident students, if they have applied for them, for a period of 10 months at a minimum cost of € 210,00 or another rate based on the accommodation service diversification adopted for the relevant area.

ART. 22

ASSESSMENT OF ECONOMIC CONDITIONS, MERIT AND ADMINISTRATIVE SANCTIONS

22.1 Assessment of economic status

Pursuant to Art. 10, point 3(4) of the Three-Year Plan (Resolution no. 113 of 30/06/2020 and subsequent amendments and additions) ERDIS performs checks on the truthfulness of the declarations made by the students concerning their economic condition and the composition of their household, in accordance with the criteria and procedures established by the Regulation approved by resolution of the ERDIS Board of Directors at its meeting of 24/06/2019.

22.2 At the conclusion of the verification in cases where a discrepancy is ascertained between the income declared for tax purposes or other Isee components, including those of a financial nature, and what has been declared in the single substitute declaration for Isee purposes that leads to the forfeiture or reduction of the benefit, an executive act shall be issued:

- a. the re-determination of the amount of the benefit in the event that the verifications reveal minor differences that do not change the eligibility conditions of the intervention. This results in the student being obliged to repay the difference between what was paid out and what was actually due, with reference to both the monetary part and the ancillary services part;
- b. the withdrawal of the benefit in the event that Isee or Ispe values incompatible with the granting of the benefit have been ascertained and confirmed for the student. In this case, the student, who immediately forfeits the benefit and loses the right to obtain other benefits for the duration of the course of study, must return the sums received and reimburse the monetary value of the services used, accounted for in accordance with the rates set out in Art. 5, point 7, of the three-year plan of the Marche Region 2020 - 2023 approved by resolution of the Marche Regional Council no. 113 of 30/6/2020 as amended and supplemented.

22.3 Findings of Merit

ERDIS ascertains merit status through computerised access to the University Student Secretariat database when made available and/or by requesting information from the University Institutions' secretariats.

In order to ensure compliance with the deadlines laid down in the notice for the granting of services, checks and verifications on the truthfulness of students' self-certifications may also be carried out after the benefits have been disbursed.

The competent manager will, by his own determination, revoke or re-quantify the amount of the scholarship in the following cases:

- lack of the merit requirement necessary to qualify for the benefit;
- is enrolled in a different course of study and/or at a different level from the one indicated in the application; this provision applies in the event that the indication of a different course of study has resulted in the awarding of a scholarship that the student, had he made truthful declarations, would not otherwise have obtained (for lack of merit, lack of funds, etc.). The benefit will be recalculated in its value if the established merit requirement results in a lower benefit entitlement than the one obtained.

The student will be required to reimburse the fees for services unduly enjoyed, in the manner set out in Art. 21.

Notice of the revocation of the scholarship will be forwarded to the competent academic authorities for appropriate action regarding the payment of fees.
